

Golden State News of Interest to All

Placer county fruitgrowers will hold their sixth annual convention in Auburn during October at a date to be determined within a short time.

The Boswell Gin at Corcoran, is installing \$7,500 worth of machinery to manufacture cottonseed cake, largely used by dairymen for feeding cows.

Approximately \$85,000 worth of street improvements will be started at once in San Fernando, according to action of the city council of that city.

The Petaluma chamber of commerce has decided to place an exhibit advertising Petaluma industry in the Los Angeles publicity building next year.

Preparations are being made for a three-days' harvest festival to be held in Santa Rosa commencing September 22. It is planned to make this a home-coming time for all former Santa Rosans.

Work has been started on the foundation of the new building of the Chinese Methodist Episcopal church at Sacramento. The building, when completed, will represent a cost of approximately \$20,000.

Fifty dollars a ton is offered for grapes at Cloverdale, Sonoma county. Growers are holding off for what is believed to be a coming advance in prices. Grape picking will be in full blast about the middle of the month.

The Johnson Act regulating the manufacture and sale of butter substitutes and held up on the referendum, was endorsed by the Farm Bureau Regional Conference of District No. 3 in session at Hanford a short time ago.

Rapid progress is showing on the construction of the dams and tunnels on the \$8,000,000 project of the Feather River Power company on the North Fork of the Feather River watershed, near Meadow Valley, Plumas county.

Plans are being made to have State Engineer Paul Bailey address the citizens of Hanford and Kings county at an early date on the plan to transfer the surplus waters of the Sacramento to the San Joaquin valley for purposes of irrigation.

Grace Bull of Modesto, was elected second vice-president of the California Federation of Business and Professional Women's Clubs at the annual convention which closed in Modesto. Mrs. Margaret D. Yale of Burbank, was elected to the presidency.

The rapidly increasing popularity of Camp Sacramento, Sacramento's vacation camp in the Sierras, as a vacation place for Sacramentoans resulted in City Manager H. C. Bottorff authorizing the construction of five additional buildings at the camp.

County Farm Advisor H. A. Weiland, Sonoma county, and Dr. E. Dobbs of the veterinary division of the University of California, made an investigation in the coast section to determine the nature of the malady that has caused the death of many sheep in the last few weeks.

Radio advertising of grapes grown in the El Camino district has created such a demand in Missouri, Iowa and Nebraska, that the owners of Station KFNH have sent an urgent call to arrange for the shipment of two carloads a week for the balance of the season. The fruit is sold right from the car as soon as it arrives from Gerber.

Plans to install a telescope at Mt. Wilson Observatory measuring 300 inches in diameter and to cost \$12,000,000 soon will be given publicity in an article by Francis G. Pease of the observatory staff, Los Angeles, to be published by the Astronomical Society of the Pacific. The present telescopic lens measures 100 inches in diameter.

Fruit trees in Kern county are being seriously threatened by the red spider, according to the horticultural commissioner. The ravages of the spider during the present year have not been so severe locally, as during 1925 and the preceding year; nevertheless, it is important that more rigorous and effective warfare must be against it.

The board of supervisors of Napa county voted to put up to the voters of the county at the November election the proposition of a bond issue for \$100,000, to be used for the construction of memorial halls in Napa, St. Helena and Calistoga. This decision was reached after a conference with committees representing the American Legion posts of each of the above towns.

A tract of almost twelve acres of land on the University farm at Davis, is being prepared for the division of truck crops for work with sugar beets. This important crop has been subject to the depredations of the leaf hopper for the past eight or ten years with increasing destruction each year. It is the object of this division to develop, by breeding, strains of the sugar beet resistant to the leaf hopper.

Fred Hoyt, of Eureka, Calif., aviator was adjudged the winner of the "on to the Sesqui" race, having flown the 2,558 miles in twenty-one hours flying time. The announcement was made as the pick of American aviators prepared for the national air races at Model Farms Flying Field. Hoyt was given a cash prize of \$1,200 for his feat and was presented the Sesqui-Centennial trophy, which will become his permanent possession. He left Eureka August 25 and landed in Philadelphia September 1, at 6 a.m. The elapsed time was 146 hours. He made one forced landing in Ohio.

An example of what thrift, hard work and good management will do to provide necessities and some comforts for a wife and family has been demonstrated by P. W. Perdue, a former resident of Texas, who came to Oakdale, Stanislaus county, about two years ago. During the past year he has been employed by a rock company and worked his regular shift at the company plant and at odd times has planted and cared for a cotton crop of eleven acres one-half mile from the city limits. Most of Perdue's work at the plant was on night shift and after getting his sleep and rest in the mornings, a part of the day was spent in taking care of the crop. The cotton is now maturing and with the aid of two small sons he has gathered about 400 pounds and open bolls are seen all over the patch. Perdue estimates the yield at three-fourths of a bale to acre where irrigation was used.

Births, deaths and marriages in California during the first six months of the present year all show substantial increases over the corresponding period of 1925. It was announced by L. E. Ross, director of the State Bureau of Vital Statistics. Ross' official semi-annual figures disclosed the greatest percentage of increase in births, 40,503 being recorded for the first six months of 1926 as compared with 38,444 in the first half of 1925. This is a gain of 2,059 or 5.4 per cent. The semi-annual marriage figures reveal an increase of 3 per cent. The first half of this year witnessed 26,675 weddings in the state, as against 25,923 in the corresponding 1925 period. The 1926 death toll was given as 30,382, an increase of 2.2 per cent. Infant mortality, however, decreased 13.1 per cent.

Thirty tons of almonds per day are being received by the Arbuckle, Colusa county, warehouse of the California Almond Growers' exchange. Twelve hundred tons are expected to be handled by the association this year. This is about one-tenth of the state crop. An early estimate of the crop figured 100 per cent increase over last year's crop. Picking to date shows the increase to be over 300 per cent increase. Prices have not been set by the almond growers' association for this year.

Sutter county has found a place for the under-sized peaches which the canneries have been rejecting. The smaller fruit promises to come into its own, according to E. E. Wernex of Yuba City, buyer for a San Francisco syrup company. Wernex this season, purchased several hundred tons of the under-sized fruit for his firm, shipping the peaches to the San Francisco factory, where it was peeled, concentrated into rich syrup and sent to the trade in jars. Various varieties of the fruit are being used in the process.

The Cuyama highway was turned over to the state highway commission at a meeting of the directors of a joint district, comprising Kern, Ventura and San Luis Obispo counties, held in San Francisco, recently. The highway is between Maricopa in Kern county and Santa Maria, and under the plan it has been incorporated as part of the state highway system, and its maintenance will be in charge of the state highway department in the future.

Watermelons grown in Redlands and in the Moreno valley are now on the market and are proving to be so much better than the melons shipped in at this time that the local growers are able to secure a half-cent a pound more for their product. The Redlands cantaloupes are also bringing a better price than those from the outside. The melons grown around Mentone and on the sand in the Lugonia section are also of good quality.

Thirty prominent men of the state including University of California professors, members of the California Bar, and other professional and business men demonstrated their ability to earn a living by hand labor this summer, by building themselves a clubhouse of stone and timber one-half mile from the summit of the Sierras, above Truckee. The clubhouse will serve as a winter home for the California Ski Club.

First steps toward insuring a permanent, adequate water supply for Alum Rock park, municipal mountain resort seven miles west of San Jose, have been taken by the San Jose city officials with the filing of an application with the state department of public works for 500-acre feet of water a year from the north fork of the Penitencia creek, which flows through the park.

CLUB PROGRAM OUTLINED FOR THE COMING YEAR

The Country Woman's Club dues are payable at this time. A full attendance of members is urged so that the new year may start with an impetus. The program committee has arranged the following interesting outline which includes both study and recreation.

- Sept. 20. Musicales. Social Meeting.
Mesdames Carboni, Cramer, Shadle.
- Oct. 4. Modern Brazil.
Miss Denton, Mesdames Peake, Shearer.
- Oct. 18. Modern Argentina.
Mesdames Purmort, Gard, Sutter, L. Shelley.
- Nov. 1. Chili and Peru.
Mesdames W. I. Merrill, Berry, R. W. Kennedy.
- Nov. 15. Education Week. Open Meeting.
Speaker Provided.
- Dec. 6. Drama.
Miss Lewis, Mesdames Edna Smith, Eddleman.
- Dec. 20. Christmas Program.
Mesdames Pardee, Burrow, Bohnett, Foster, Miss Schulte.
- Jan. 3. Book Review.
Mesdames Duncan, Parkhill, Abbott.
- Jan. 17. International Relations.
Miss Cohen, of Los Gatos.
- Feb. 7. Development of Our Language.
Mesdames Blaine, Shaw, E. C. Merrill.
- Feb. 21. Book Review.
Mesdames Saunders, Bean, Pomeroy.
- Mar. 7. Our National Parks and Forests.
Mesdames Hubbell, W. S. Shelly, Johnson, Miracle.
- Mar. 21. Drama.
Mesdames Ross, Dalvit, Lanphear, Grattan.
- Apr. 4. Guest Day. Musicales.
Hostesses: Mesdames Alison, Hyde, Robson, Miller, Righter, Cooley, Morton, Lenox.
- Apr. 18. Los Gatos History Club.
Hostesses: Mesdames Ainsley, Archibald, Husted, Higbie.
- May 2. Annual Meeting.
- May 16. World Topics.
Mesdames Perrott, E. R. Kennedy, Page, E. R. Smith.
- June 6. Picnic.
Mesdames Hedegard, Galbraith, Rubell, Withers, Dunphy.

CRACK TEAM ORGANIZED HIGH SCHOOL GROWING

The Campbell Union High School Alumni have organized a permanent Alumni Basketball team.

This team will play against high-class teams from San Jose, San Francisco, Oakland and other parts of the state.

Their object is to furnish Campbell with a high-grade basketball, to raise the standard of basketball in the high school by bringing in good teams from other parts and to advertise the town and community of Campbell.

The personnel of the team at present is: Breck Reed, Sam Reed, Carl Nelson, Multon Nelson, Harold Shelley, Oldrich Kalas, Harold Cramer, Warren Eddleman and Raymond Steindorf. Billy Robinson will practice with the boys until State basketball season opens.

All Alumni are invited and urged to practice with the team. Others will be added from time to time.

Last Friday night they defeated the San Jose Hardware team in a fast game for this early in the season, by a score of 31 to 9.

Saturday night, Sept. 18, the Alumni will play the Crystal Billiards of San Jose here at Campbell. The Crystal Billiards have a very powerful line-up and a good game is offered.

On Saturday night, Oct. 9th, the Alumni will play the Matson Navigation Co., quintet from San Francisco. This team is a strong aggregation and a very high class game is anticipated.

No one should miss this game. The usual price of 25c will be charged, ten cents for children under 12 years accompanied by their parents.

Remember Sept. 18 and Oct. 9.

Mrs. S. L. Hayes went to Carmel Monday for a rest and outing.

Enrollment at the High School during the week has reached 254, of whom 75 are freshmen. This represents a slight increase over last year's enrollment.

Many parts of the building are shining in new coats of paint, and the boys are much pleased with new tiling on the floor of the showers. The students of the eastern route are enjoying a new sense of security and punctuality as a result of a new bus.

Except for a few readjustments on account of the unexpected size of some of the freshmen classes in English, history and drawing, everything has been going like clockwork, with the students apparently throwing more enthusiasm than usual into their work.

Mr. Thielke has been added to the teaching force and will give both individual and collective instruction in band instruments. He has had many years experience in the leadership of naval bands, and will divide his time between Los Gatos and Campbell. The enrollment at the Los Gatos High School this year is over 300. For many years before the construction of their fine new building the enrollments of the two schools were almost identical, but apparently better school facilities are beginning to affect the school population.

COMING EVENTS IN P. T. A. CIRCLES

The attention of all officers and department chairmen in Parent Teacher work is called to the meeting of the Foothill Federation of P. T. A. which is to be held in the Campbell Union Grammar School, Sept. 27th, at 2:30 o'clock, and to the Sixth District meeting held at State Teachers College, San Jose, Tuesday, Sept. 28. These meetings will be of importance to every earnest worker.

DUNCAN-NEWCOMB

The nuptials of a very charming home wedding were performed Wednesday afternoon at 2:30 by the Rev. G. E. Atkinson of Ceres, when Miss Alice Duncan became the bride of Gilbert Newcomb.

The guests, who included a very few intimate friends of long standing and an extensive group of relatives were seated upon the lawn of the John Duncan home and to the strains of Chopin's Rondo, played by Mrs. A. B. Townsend, the wedding party took their places. A beautiful screen of smilax made a natural background and a bower had been completed by hanging baskets of flowers and large jars of ferns.

The bride, who was given away by her father, was handsomely gowned in a lace dress which she purchased while in Europe, worn with a veil and she carried a shower bouquet of carnations and ferns.

Mr. and Mrs. Edwin Parker of Crockett attended the bridal couple and a niece, Marion Elizabeth Carter acted as flower girl. Mrs. Parker wore an apricot georgette dress and also carried a bouquet of carnations.

Preceding the ceremony Mrs. Parker sang the marriage hymn, "Perfect Love," and during the serving of refreshments in the dining room, Mrs. Warren Shelley sang "Perfect Day."

Mr. and Mrs. Newcomb left later in the day on a camping trip, whose destination not mentioned. Upon their return they will begin house keeping in the new home which the groom has built on Los Gatos Road and which is all furnished ready for occupancy.

The bride is the third daughter of Mr. and Mrs. J. F. Duncan and has spent all of her life in Campbell except two years when she was teaching in Ripon. She graduated from the local high school and the State Teachers College and has taught very successfully for several years in San Jose.

Very popular with her classmates and fellow teachers she has also a wide circle of friends in other walks of life.

The groom is the son of Mr. and Mrs. F. E. Newcomb is also a product of the local high school and also attended the Agricultural College at Corvallis, Ore., for some time. For a number of years he has engaged in carpentry and home building in this vicinity except during the World War when he served over seas.

Sincerest of good wishes are extended for the happiness of this new home.

HARVEST BANQUET

The grange held one of its usual harvest feasts Tuesday evening followed by the initiation of five new members in the third and fourth degrees by the drill team. The drill team work was especially fine and enjoyed by all. Several members of East Palo Alto and Mountain View granges being present.

The solemn ceremony of draping the charter in memory of our departed sister Mrs. Ada Morton was observed.

The committee on grange exhibit at the Mountain View fair to be held Sept. 21 to 24 reported progress and discussed exhibits.

For this purpose fifty small boxes had been procured for fresh and dried fruits and nuts which were distributed after grange. Any person who has any thing to exhibit can procure boxes at F. S. Newcomb's, Campbell Ave., and all are urged to help make a credible exhibition should be at Mr. Hedegard, Los Gatos-Saratoga Road, Tuesday morning, Sept. 21, early to be taken up by truck. Exhibit opens Tuesday night.

The State grange meets in October at Scottish Rite Temple, San Jose. Further announcement will be made later.

Uncle Jos Bohnett is able to be about daily and feels no painful effects from his recent light stroke.

MOUNTAINEERS ENTER CAMPBELLITES

Mountain View Day at Campbell! That was one of the best we have had, so say all. Twenty six "high lookers" came to the Orchard City Wednesday to have a friendly hour and lunch with the local Kiwanis boys.

Claud Redwine acted as chairman of the feast and be assured he had absolute control of himself and a "full house." He's a pastmaster at the business when it comes to the fine points of charity boosting.

Louie Baker made the talk and he is some preacher. Taking as his subject the blessings and dangers of living in a small town, he pointed out that doubtless religion, family and friends were the greatest blessings of man and were best and most completely developed in the small community.

At the same time because of the familiar relations existing there are dangers to be avoided. These he enumerated as politics, religion, the merchant-knocker, gossip, old enmities and grudges. No town can thrive well with these ideas working toward its downfall.

Those attending enjoyed a treat in the form of roast venison the gift of Ed Wisendanger, a deer-slayer of the latest model.

Abie Gilson worked a clever scheme as a boost of the charity fund. He sat at the door hat in hand selling one shoe string and one pencil many times, securing better than \$2 for the cause. Abie is too good a fellow to be lost by that lowly calling so his associates have broken the habit in the bud.

Claud Redwine presented this club and President Alison with facsimile copies of the Declaration of Independence. A copy is on display in the Press Office window. Harry Smith was given the attendance prize, a "liquifone bazooka," and then asked to give demonstration in harmony with Doc Merrill at the piano. Somebody suggested "fine".

REBEKAHS CELEBRATE

Ada Rebekah Lodge to observe the Diamond Anniversary of the Rebekah Degree.

The occasion of its 75th anniversary offers an opportunity to celebrate the victories of the past and to create a new and abiding interest in the future of this most splendid successful branch of Odd Fellowship.

A live committee including Mrs. Janette Moore, Mrs. Lillian Ohlen, Mrs. Myrtle Johnson, Mrs. L. H. Grant and Harry Silver, is preparing a most entertaining program which will include the Canton and Ladies Auxiliary in full dress.

Ada Rebekah Lodge invites their friends to join with them in observance of the day.

The exercises will begin at 8:30 Tuesday, Sept. 21, in I. O. O. F. hall.

CHAMBER SUPPORTS GAS TAX

At the regular session of Campbell Chamber of Commerce Monday evening, S. N. Hedegard was selected to represent us as a supporter of the one cent gas tax measure.

Property owners at dangerous corners will be seen in regard to widening the curves of the highways. Extension of the fire and light districts were further discussed with the view of enlarging each.

C. H. Whitman, ever a booster for a bigger and better community county and state, gave a very comprehensive idea of advertising the central coast counties. With San Jose as a center tourists can easily see the various attractions in this section with the least possible effort. Good work, what? Keep it up.

PIONEERING STILL TO BE DONE

Seeing the marvelous developments around us
we are probably too much inclined to think that
there are no more opportunities for the leader and
the pioneer in the field of constructive progress.

This attitude leads nowhere, and holds back
both the individual and the community. Look-
ing about in this wonderful country—a nation
built from abundant resources—we find the ap-
parently finished works of the miner, architect,
artist, agriculturalist, educator and industrialist
on the one hand; and on the other are the great
undeveloped fields of activity for those who look
and think and work. Some can see a future for
the business of pioneering. Those who see the
vision and act because of it succeed. While those
of the multitude believe that for practical pur-
poses all is done or nearly done than can be
done. These latter march along with the pro-
cession but not ahead of it.

Take the large cities as examples. Even New
York still bids high for the pioneer. A few
years ago the Singer building and the Metropoli-
tan Tower were the principles until along came
the Woolworth structure, built from the nickels
and dimes of America's commoners. Now it is
to be eclipsed by several stories. Vast acres lie
in western lands awaiting water—the "white
gold" so necessary to production. According to
authority the world has only been scratched for
oil. The inventor's mind is always working to
bring new standards of living and new hours for
leisure. In the field of letters, science, and all
creations of mental effort there is no beginning
too late for achievement. In workshop, kitchen,
garage, store, office and farm opportunity is
ever beckoning one to advance.

The examples pointed out are not exagger-
ative. Our own community affords illustrations
of the truth that there is still pioneering to be
done.

We have only started; but the ultimate goal
is not for one alone to define. Some may name
increase of population; others may attribute suc-
cess to industrial progress; still others may urge
the greater need for educational and cultural de-
velopment.

All are right. There is no saturation point in
progress. There is no field of activity one hun-
dred per cent covered. There is no goal exactly
attained.

The Real goal is the conscientious striving—
the honest trying—to reach that which no one
quite wants or expects to reach in its finality.
For crowning achievements find their reward in
being sought for—with the sweat of brow, the
application of mind, and the fullness of heart.

RESPONSIBILITY

Children need protection from traffic in going
and returning from school. The parents already
are under a heavy burden. But the men and wo-
men without the duties incident to the rearing of
children really owe a double responsibility
which amount to a serious obligation in the mat-
ter of safe-guarding of the lives of the youth and
the promoting of their welfare. Relieved of care
and responsibility to this extent, society expects
from the childless a fuller measure of responsibil-
ity. Thus the burden of protection that human-
ity owes to itself in the aggregate is equalized.

Getting down to plainer language: the law
sets certain limits upon speed when passing
school buildings and grounds. The first duty—
the first mark of respect for life and limb and
law—is to keep within that limit. But we should
not stop there. Report to the officers of the law
any infractions in this regard engaged in by
others. There is a big plate with license numbers
on the front and rear of every car. These num-
bers are for your information in selecting the
criminal for the law-abiding citizen. Use them!

"New Cable To Bring America Closer to
Europe."—headline. She couldn't appear much
closer to those who owe us war debts.

An additional grape lug has been
added to the list of containers spec-
ified in the California fruit and veget-
able standardization act. So says W.
F. Allewelt, chief of the bureau of
fruit and vegetable standardization
of the California department of agri-
culture. The new lug which is being
extensively used this year measures
5 1/4 inches in depth, 13 3/4 inches in
width with an outside length of 17 1/2
inches, and has been added to the
standards under the authority given
the director of agriculture by the fruit
and vegetable standardization act.

Low humidity and lack of heavy
rains during the summer in Coachella
valley have resulted in a fine crop of
Deglet Noor dates, according to G.
M. Deering, manager of one of the
large date orchards of that district.

Eighteen lessons in agriculture were
presented in the exhibit of the Col-
lege of Agriculture, University of Cal-
ifornia, at the state fair in Sacra-
mento. These included nearly every
line of farm endeavor, from stock
raising and fruit production to the
problems of the farm housewife.

Only about 5 per cent of the farm-
ers of California keep any kind of
books or accounts, says L. W. Flu-
harty, specialist in farm management
of the Agricultural Extension Service
of the University of California. About
2 per cent, he says, know their profits
or losses at the end of the year and
only about 1 per cent know their
costs of production.

The annual short course in poultry
husbandry, open to anyone who cares
to take it, and for which no entrance
examinations are required, will be
given at the University farm, Davis,
from September 27 to November 5.
This course is intended to aid the
practical poultryman by acquainting
him with the latest and most im-
proved methods in poultry production.

Rice harvesting is proceeding in
Butte county this season two weeks
earlier than in previous years. It is
stated that the quality of the rice in
the county this year is better than
the average, kernels being well fill-
ed, fields reasonably clean of weeds
and growth fall. The acreage plant-
ed to rice in Butte county is larger
than ever before in the industry.

Success Through Investments

It is the steady accumula-
tion of funds, rather than
sudden turns of fortune,
that ultimately brings inde-
pendence and comfort and
freedom from care. Suc-
cessful men and women
have found that the best
way to achieve this is to
cultivate the habit of mak-
ing safe investments. The
Mercantile Securities Com-
pany, affiliated with the

RURAL PATRONS NOTICE

University of California experts
working on test plots in Placer coun-
ty, have effected control for Spanish
measles, which had usually caused a
considerable loss to grape growers in
all parts of the state. This is an-
nounced by Farm Advisor R. D. Mc-
Callum. McCallum stated a sodium
arsenite spray applied during the
spring of the year has effected the
control.

The five gins of Corcoran are all
ready for a big crop in prospect on
11,000 acres of cotton land in the
Corcoran vicinity and the yield bids
fair to be heavy—a condition of 92
per cent of normal showing August 1.
All the gins have been gone over and
put in first-class condition, so that
the output is estimated at 125 bales
of cotton a day when the season is
on.

Ribier grapes continue to realize
record prices on the New York mar-
ket, according to information received
by T. A. Sand of Fresno, who has been
associated with Carl A. Melcher, Mc-
Farland grower, in shipments of this
variety.

During the annual vacation of
Rural Carrier Yeager it is found
that much mail for the Rural
route comes unaddressed. This
retards the delivery of your mail,
and often delays the delivery en-
tirely until the substitute carrier
can give such mail matter direc-
tory service. If you would have
prompt delivery, see that your
rural route and box number is on
all mail matter you receive.

Also many of the boxes do not
have these requirements, your
the Rural route and Box number
on them. The sub carriers deliver
by route and box number, so if
your mail, or your box does not
not have these requirements, your
mail is delayed. The Department
requires, for your advantage,
that all Rural Boxes be erected on
a post, the post and box to be
painted white with the name and
Route and Box numbers and flag
painted black.

Walter Hulsman reported for training at Stanford Wednesday with the other athletes of the school. Walt will be a formidable competitor in this year's pole vault and other schools best look to their laurels.

Gano Eddlemon was taken suddenly ill Sunday evening and Monday morning was operated upon at O'Connor hospital for appendicitis. He has been in a great deal of pain requiring the use of opiates but his condition seems to be satisfactory. They had recently rented the house on Page St., vacated by F. F. Rego and had just established housekeeping.

Town Tales

Tersely Told

Born: To Mr. and Mrs. E. W. Preston a son, Sunday, Sept. 12.

Mr. and Mrs. H. C. Tuttle of the Peter Pan Bakery are enjoying a vacation in Nevada.

Miss Ruby Crow is convalescent from a weeks illness following an operation for removal of her tonsils.

Mrs. F. E. Newton who has been in Minnesota for several weeks visiting her brother is expected home Sunday.

Miss Marjorie Jones, niece of Mrs. A. P. Marston left Thursday for Escondido, where she is a teacher in the schools.

Mr. and Mrs. W. E. Purmort entertained Miss Una Hart of Anoka, Minn., last week. Miss Hart is a teacher in the Hollywood schools.

Too late to secure detailed information we learned that H. L. Mellon had sold his property on Latimer Ave., the former Thos. Sourisseau home.

Lillian and Heddy Archibald, who had been visiting their grand parents, Mr. and Mrs. G. L. Speegle returned to their home in Modesto last week.

Mrs. Mary Dunphy and Miss Harriet were down from San Francisco Sunday calling on friends. They are finding their home and work there very pleasant.

George Benner, who has taught Physical Education in the Pomona High School is going to attend the University of Colorado this year to take up more advanced studies.

Miss E. A. Denton and Mrs. E. D. Hubbell left today for San Diego to spend two weeks. While there Mrs. Hubbell will attend the national convention of the W. C. T. U.

The hunting party including Horace Lea, Wm Ohlen, Irv Beal and George Whipple returned Monday, having been successful in securing three deer in the Weaverville region.

Mrs. Sadie Le Seuer returned last week to Arizona where she will teach near Kingman. She spent the summer here with her sisters Miss Mary Fablinger and Mrs. Frances Swane.

Mr. and Mrs. J. E. Gamo left Tuesday for a twelve day visit with Mr. Gamo's brother in Los Angeles and San Diego. They went down by the coast route and plan to return the Ridgeway.

Mr. and Mrs. G. S. Robson accompanied Miss Joyce to Coalinga last week and assisted in getting her established for the year as she is one of the high school faculty there this year. Miss Alice Joy, who has taught there for several years returned to resume her work.

Leaves for South

Mrs. Ellen R. Smith is leaving next week for Los Angeles to live with her daughter Mrs. Gertrude Spaulding and family. She has broken up her home on North Second Street and the property is for sale.

As Mrs. Smith has several children in this section she will be coming back for visits but it is a very real loss to our community to have her leave us as a citizen. She has always taken an active interest in all matters of civic interest and educational welfare and her helpful support of all those organizations and movements will be sadly missed.

As a charter member of the Country Woman's Club she has been one of its earnest workers though all its history, serving as its president many times. She has served on the Library Board for years and has done much to further the observance of Roosevelt Day.

In the various activities of the Congregational church she has ever been an earnest worker and the Missionary Society and the Sabbath School will lose one of their pillars.

The heartfelt good wishes of hosts of friends will accompany her to her new home.

HI P. T. A. PROGRAM

Campbell Union High School P. T. A. complete plans for coming year.

An interesting Round-table was held by members of the High School P. T. A., on Tuesday afternoon when the program of the year and the duties of department chairmen was the subject under discussion.

As a slight change from the usual custom, the programs are designed especially to attract the fathers in that every other meeting is an evening meeting, but anything that is of vital interest to one parent should be equally so to the other and every meeting will be taken up with problems from the standpoint of home and school, for the fundamental and underlying idea of P. T. A. work is complete understanding and cooperation between the school and the home.

The afternoon meetings will be held on the second Tuesday of the month and the evening meetings on the Third Tuesday (because of grange meeting second Tuesday evening.) All programs will be made bright, snappy and interesting alike to parent and teacher. Afternoon meetings open at 2:30; evening meetings at 8 o'clock followed by a social half hour.

The programs for the next three months are as follows:

Oct. 19th—Evening meeting—Mrs. S. N. Hedegard in charge.

Subject, "Reasons for Educating Children" (Educators' and parent's)

Five minute talks on:

1. Fundamental Differences between High School and Grade School customs and methods.

2. Home Study problem. Social Half hour.

Nov. 9th—Afternoon meeting—Mrs. Ralston Alison.

Ten-minute talks on the following subjects:

1. "Responsibilities and Privileges of the High School Second Year."

2. Home-Reading in the Second year "What and Why?"

3. Some ways in which Sophomore parents may co-operate. Social half hour.

Dec. 13th, Evening Meeting—Mrs. Harry Barnes.

Subject, "The High School Boy's special need of his Father."

Ten minutes talk on—"Why the High School Welcomes the Co-operation of Parents."—Social Half-hour.

Mr. and Mrs. J. E. Gamo left Tuesday for an auto trip to San Diego.

Mrs. W. C. Bohnett and children are enjoying a vacation at Capitola.

Mr. and Mrs. H. Fred Evans are experiencing the pleasure of a motor trip to Portland.

Mr. and Mrs. J. C. Ainsley are enjoying a vacation trip to the Grand Canyon this week.

Mr. and Mrs. Roger Kerwin of San Francisco visited her parents Mr. and Mrs. G. W. Page, Sunday.

Campbell has furnished a long list of students who have enrolled in the Junior College and State Teachers College.

Mrs. Vance, who has been visiting her aunt, Mrs. W. H. Stray, left Saturday for her home at Detroit, Michigan.

Mrs. A. E. Brydon and children spent last week at Capitola resting up for the school term which began Monday.

The Campbell Evening School will reopen next Monday, Sept. 20th, in the High School annex at 7 p. m. Courses in English and Citizenship will be given. All wishing to attend please enroll Monday evening if possible.

Miss Bozena Kalas is again at Stockton, where she is one of the valued teachers in the musical department of the College of Pacific. Miss Helen Kalas is teaching vocal music part time at the Belmont College of Notre Dame.

George Payne, Jr., Ed and Will Wiesendanger, Ira Bogart and Geo. Ivancovich last week brought in three nice bucks from the San Antonio valley district south of Mount Hamilton, as a show of their skill with the rifle. This was exceptional success as this region has been pretty well hunted during the season.

PRUNE PACKING METHODS STUDIED

To improve present methods of packing prunes and to develop new uses for this fruit, investigations have been undertaken in the Fruit Products Laboratory of the University of California by Emil Mrak, a graduate research assistant. A research fund for the investigations has been donated to the University by the California Prune and Apriort Growers' Association.

Although the work has been under way only a short time, a very promising new canned product has been developed and prepared successfully on a semi-commercial scale. In experiments conducted in cooperation with Dairy Industry Division at Davis, it was found that prunes may be used to excellent advantage in ice cream for the preparation of a health food.

A commercial ice cream factory has introduced this product successfully. The general purpose of the investigation is to improve existing methods and to devise new methods of packing and using prunes in order that the marketing of this famous product of California's sunshine may continue on its present favorable basis. The investigation is being conducted under the direction of W. V. Cruess, Associate Professor of Fruit Products.

STATE FAIR IS LARGEST EVER

For the first time in its long history, the California State Fair, which closed in this city Saturday night, topped the \$100,000 mark in gate receipts. It is estimated that 250,000 persons were in attendance during the eight days of the State's great exposition.

The best previous record was a gate of \$86,298.85, with an estimated attendance of 200,000 in 1920, when the Fair ran from nine days instead of eight. It is recalled that in 1920 all enterprises of like character enjoyed their greatest patronage.

Last year, with a nine-day run the gate receipts were \$76,537.62, with an attendance estimated at 185,000.

With a desire to aid those county fairs in various sections of the State which follow immediately upon the close of the State Fair, the Directors this year adopted the eight-day schedule closing Saturday night instead of Sunday night as formerly, exhibitors here have an additional day in which to install their displays at the next stand, and the county fairs are enabled to assure visitors of viewing complete installation of exhibits on the opening day.

Bodley Grateful For Support of Voters

I desire to again thank the voters for the large vote given me in the recent primary election for the nomination of tax collector of Santa Clara County, which office I now hold.

I am grateful for the support of the men and women of this County among whom my life has been spent.

I promise, if re-elected, as your recent vote indicates, that my best efforts will continue to be expended to courteously, efficiently and economically serve you.

THOMAS BODLEY

Food from sunlight is the prediction of scientists. Lovers have long existed on moonlight.

Must Teach Caution To Forest Visitors

No one wants to see the National Forests closed. To bar motorists and campers and sportsmen from these playgrounds because in the past they have been careless as regards fire, would be much like barring children from a nursery because they had marred the walls. Just as careless children must be taught better—and then allowed to go ahead with their play—so must the users of the forests be made to realize that their carelessness with fire might result in such an extreme measure as forest closure.

Something of the foregoing thought is the gist of the present campaign being waged by the Richfield Oil Co., in cooperation with the Clubs of Calif. These clubs, according to their officials, take the stand that, while the forest fire menace is a genuine one at this time, closing of the forests is by no means yet warranted; that there is still time for educational campaigns of warning to eliminate the danger by means of publicity.

Motor Car Dealers Associations, automobile clubs, touring bureaus, oil companies and others vitally interested in motorists enjoying to the utmost the scenic advantages of California's many forested wonderlands under federal control, are declared back of this move of the allied sportsmen's organization.

One of the strongest indorsements of this stand is the continued policy of the Richfield Oil Company, which for several years has waged a "Prevent Forest Fires" campaign. And backing their beliefs, Richfield have just issued a new series of advertisements, running in practically every newspaper and magazine of this state, devoted entirely to a general appeal to "Save our Forests."

Tomato growers in the San Lorenzo district were alarmed over the first rain of the season recently, but the fall was not heavy enough to cause loss, according to growers' reports. A large part of the local acreage is nearly ready to be harvested.

The California Vegetable Union at Woodville, Tulare county, has just completed planting fifty acres to fall potatoes. Two hundred acres on this ranch will be planted to a cover crop of purple vetch and barley, preparatory to the 1927 crop of potatoes.

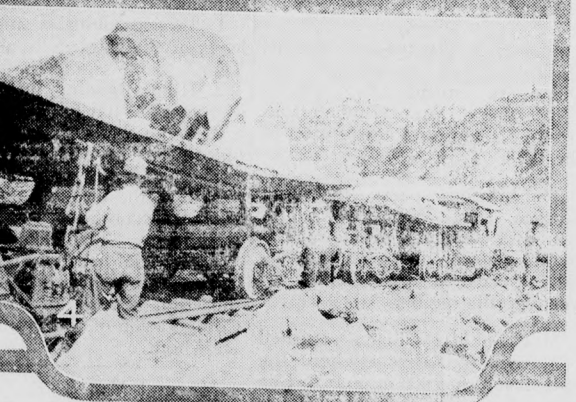

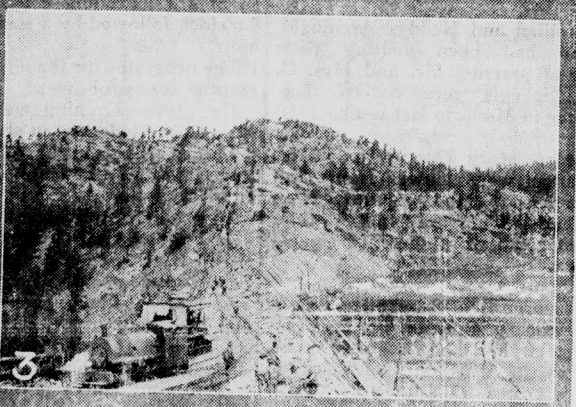

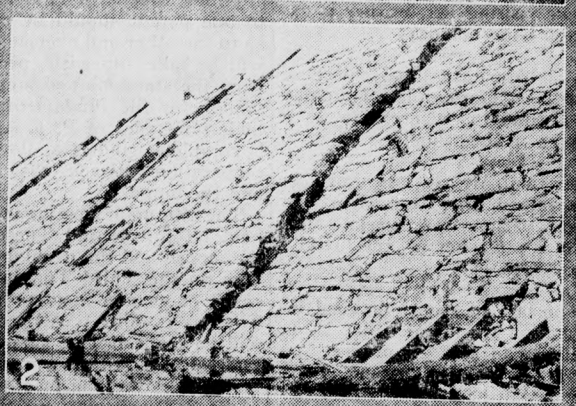

California Linda Lad's Fern, a two-year-old Jersey cow owned by the University of California at the University Farm, Davis, has established a new record for production in her class with 10,280 pounds of milk and 621.82 pounds of butterfat, for the year's test.

The Fillmore Citrus Fruit association, at Fillmore, made a record August 7, when shipments totaled 5310 boxes of oranges and lemons for the one day. Of this total, 3,556 boxes were taken by truck to San Pedro and loaded on the President Adams for exportation to China, Japan and South Sea Islands.

Home preparation of jelly and marmalade is the title of Circular 2, of the Agricultural Extension Service of the University of California. This circular, free for the asking at the College of Agriculture at Berkeley, gives tables showing exactly what proportions of pectin, acid and sugar should be used for each fruit.

"Chico is the largest almond growing district in the state and this year the crops in this particular location look better than almonds anywhere else," C. W. Blaydon of the California Almond Growers' Exchange told the

Pacific Gas and Electric Company's Lake Fordyce Development

1. Building a spillway for the overflow. 2. Thousands of hand-placed boulders make up the facing of the dam. 3. The dam will be 116 feet high and a quarter of a mile wide. 4. Huge boulders are carried in on cars and dumped. The dam is being raised 47 feet, doubling the storage capacity of the lake. Stored water will be used for power generation and irrigation during the dry seasons. Cost of the project, \$1,750,000.00.

The Pacific Gas and Electric Company's engineers plan to have the big rock-filled dam located at Lake Fordyce, Nevada County, completed within 90 days.

The dam will be 116 feet high, and will have a crest of about one-quarter of a mile long when completed. It is located near the summit of the Sierras, at an elevation of any rock-filled dam of like character in the country. The dam was originally started by miners in the early 70's when a small structure was built for the impounding of water for hydraulic mining. At that time the rock was hand placed, while today the work is carried on with the latest type of construction equipment. Its height has been raised three times. The present program calls for the adding of 47 feet to the structure. Due to the short working season at this elevation, the construction program has carried over a period of 2 years, having been started in 1925.

The storage capacity of the lake, which is 56,000 acre feet will

be doubled by the raising of the dam. The work involves the moving of more than 2000 yards of rock per day. 250 acres of land are being cleared of trees and brush in the area to be flooded. The lake created will be fed by a water shed of 21 square miles. Water stored will be used for the generation of hydro-electric energy through a chain of five power houses located in the Bear River Valley, above Auburn.

After passing through the power house, the water will be diverted and used for irrigation purposes in the orchard and farm lands of north Central California. The additional stored water will be of a sufficient volume to cover 25,000 acres of land with one foot of water and will be available for general agricultural purposes. The project involves an expenditure of \$1,450,000.00 and is carried on under the direction of P. I. Kurtz who was assistant superintendent in the construction of the Pacific Gas and Electric Company's Pit No. 3 Power House and Dam.

There are two kinds of parties in this country: political and petting. Both need watching.

YOUNG WIFE AFRAID TO EAT ANYTHING
"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard.
ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines which you never thought was in your system. Excellent for obstinate constipation.—Orchard City Drug Co.

NOTICE OF SALE OF SCHOOL PROPERTY

BE IT RESOLVED, ordered and declared by the Board of Trustees of Cupertino Union School District of the County of Santa Clara as follows:

That it is the intention of said Board to sell the following described real property belonging to said Cupertino Union School District, which said property is situated in the County of Santa Clara, State of California, and is particularly described as follows, to-wit:

Beginning at a point where the southerly boundary line of the land of the Doyle School District intersects the easterly line of Tantau Avenue and running thence S 0 degrees 39 minutes E. along the said easterly line of Tantau Avenue a distance of 30 feet to a point; thence N. 89 degrees, 34 minutes E. a distance of 249 feet to a point; thence N. 0 degrees 39 minutes W. a distance of 30 feet to a point in the south-east corner of the land of the said Doyle School District; thence S. 89 degrees 34 minutes W. a distance of 249 feet to the point of beginning. Courses true. The above described real property containing 0.171 acres, more or less, and being a strip of land 30 feet wide, parallel to and lying adjacent to the southerly boundary line of the land of the Doyle School District and being a portion of the lands formerly of Elizabeth McLeod in the Quito Rancho, County of Santa Clara, State of California, together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining.

That said real property with the appurtenances and improvements will be sold for the minimum price of \$100.00, purchaser to pay for abstract or certificate of title, and the 28th day of September, 1926, at eight o'clock p. m. of said day at the school building of said Cupertino Union School District situated in said district, be and they are hereby fixed as the time and place for public meeting of said Board of Trustees, at which sealed proposals to purchase said property will be received and considered, and such sealed proposals are hereby invited and will be received and considered at said time and place, the board reserving the right to reject any and all such proposals.

Be it further resolved and ordered that this resolution be published once a week for three successive weeks previous to said meeting in the Interurban Press, Campbell a newspaper of general circulation, published in said County of Santa Clara, there being no such newspaper published in said Cupertino Union School District, and that no other or further notice of said meeting need be given.

Passed by the Board of Trustees of said Cupertino Union School District this 31st day of August, 1926, by the following vote:

Ayes: Trustees I. A. Ball, H. H. Moser, J. L. Haskins, Warren E. Hyde.
Noes: Trustees.

Absent—Trustee C. R. Forge.

Attest: Warren E. Hyde, Clerk of said Board.
